

12/31/21

Dear St Ann's Families-

This letter is to update you on COVID on the Portland Campus. Overnight there were 2 elders identified with COVID. They reside on the SCU and on the LCC. The elder on the SCU will be moved to the COVID side (south). The elder on the LCC will isolate in their room. There were 7 new employees that were diagnosed with COVID. Five of these employees are clinical. Through contact tracing we have identified that one of the staff members had contact with some elders on WCC1200. As a result 9 elders on this neighborhood were placed on yellow and will have surveillance testing. As you are aware, all staff are vaccinated.

Wishing you a healthy start to 2022.

Sincerely,

Dr. Petrone
